Martus Stone is not responsible for any information given that is not correct.

We will match fonts to the best of our ability. Due to possible space constraints of the existing design, placement and size of additional engraving will be left to the discretion of Martus Stone.

Please make sure the date and all spelling are correct.

Signature of Person Ordering and Approving Work _____

Passing Date Expectations

At Martus Stone, we take pride in helping families with all of their monument needs including going back to the cemetery to add a passing date. We do our best to find a font that is similar to what was used, but please be aware some older monuments used hand cut fonts which are no longer available.

We will match the width of the passing date line (left to right) to the date of birth and center the Day between the Month and Year. We DO NOT adjust kerning (spacing between the letters) since it is subjective to each person/family.

Below are a few examples:

If the monument has been setup with dates that are centered over each other, we will add the passing date in the same format.
